

**Save Labor & Materials**

# **TextraFINE™ Post Frame Insulation**

## **TextraFINE Post Frame Insulation**

Rolls are standard 93" wide and friction fit for fast and easy installation.

## **Overall Performance**

TextraFINE Long-fibers outperform standard fiberglass

- Tensile Strength - reinforces durability
- Recovery - expands back after compression
- Rigidity - holds its shape and won't settle over time

## **Friction Fit**

The full recovery of this insulation allows for a friction fit providing fast and easy installation. This allows you to keep building on schedule.

## **Specifications**

No need to spend extra money on lumber to add support to your insulation. TextraFINE 93" wide insulation rolls fill the cavity between posts.

- Available thicknesses range from 1" (R-4) to 6" (R-19)
- Custom widths range from 12" up to 120" (minimum orders apply)

## **Faced Product**

Reduce seams and get a great finished look.

- 93" wide with 101" white PSK facing
- 2, 4" staple tabs for ease of installation

# TextraFINE™ Post Frame Insulation

## Stands Up to the Test

Rigid post frame insulation saves labor and materials. Don't waste time installing clumsy insulation.

## R-Value up to R-19

TextraFINE is long-fiber insulation that is guaranteed to recover after un-packaging. Thus, allowing the insulation to maintain installed R-values of R-4 to R-19.

## OUR ENERGY SAVES YOU ENERGY®

### Quality Manufacturing

Anco Products is a high performance, world class, environmentally responsible manufacturing company. Recognized for quality products, safe and efficient work ethic, and dedication to our customers.

## Sustainably made from Silica Sand

Fiberglass is made from silica sand, a rapidly renewable resource. With TextraFINE you are building with an earth friendly product and buying from a company that actively cares about sustainability.

## Fire and Moisture Resistant

Fire Resistant: ASTM - E84 FHC 25/50

Moisture Resistant: Will not sustain fungi or bacterial growth, prevents rust and does not promote corrosion.

## 85% Recycled Content

The process used to make TextraFINE diverts millions of pounds of waste from landfills each year. TextraFINE contributes to LEED certification.

## Safe Around Children & Pets

TextraFINE is tested and certified with GREENGUARD Children & Schools<sup>SM</sup> for extremely low VOC emissions.
